OUR STORY

Aarvi Overseas is a trusted supplier of minerals, chemicals, and fertilizer raw materials, serving industries across India and international markets.

Established in 2010 by Mr. Sohan Choudhari and Mr. Dayanand Chougule, we began with mining and mineral supplies for steel and cement industries. Over the years, we expanded into chemical and fertilizer raw materials, strengthening our presence across Maharashtra, Karnataka, and other markets.

With a strong focus on **quality, reliable sourcing, timely delivery, and customer satisfaction**, Aarvi Overseas works closely with manufacturers, traders, and industrial buyers to provide dependable supply solutions.

Today, we continue to grow as a reliable partner for industrial, agricultural, chemical, and fertilizer industries, backed by experience, strong supplier networks, and efficient logistics.
